Feedback Analysis Report for the year 2017-2018

Importance of Student Feedback: The College aims to offer the best possible environment and learning experience to encourage students to perform to their full potential.

Feedback from students allows the College to evaluate how its service provision is viewed by its most important group of stakeholders, namely its students. Besides providing students with an opportunity to comment on the quality of the teaching and learning environment at the College, feedback ensures that lecturers and Boards of Studies are made aware of problems perceived or encountered by students, and provides an opportunity for the conduct of self-evaluation and revision, where necessary.
